

# Special Kids: Products on Review

## August 2025

### Toileting made easy

Healthier for children. Simpler for you.

Time and again, research has shown the necessity of good toileting for children's health. Hygienic, simple, affordable, the Rifton HTS promotes the positioning that is ideal and natural for effective toileting. Meanwhile, its versatility and simplicity – usable on, over and off the toilet, no tools required – make the lives of caregivers better too.

### Sensory Integration Products

We supply a small range of specific products that assist with sensory integration.

It all started with a Sensory Integration trained Occupational Therapist, an anxious boy and a stuffed dog named Spot. Spot is now covered in patches, has been through the washing machine on various occasions but remains a loyal companion and an excellent co-regulator. From there the range grew and more products have been added over time.

### Upskilling & Training Centre

**The Living Link** is a Non-Profit organisation that works with young adults who have intellectual disabilities. The Living Link has successfully challenged barriers by advocating for and working towards economic participation, inclusion and social justice for people with intellectual challenges enabling them to participate in mainstream society.
