### Liftup Stair System

[www.sitwell.co.za](http://www.sitwell.co.za)

The FlexStep stairlift is designed to function both as an ordinary staircase and as a wheelchair lift. Developed and manufactured by Liftup, the FlexStep is flexible and equally useful for pedestrians and wheelchair users alike. FlexStep is an innovative 2-in-1 solution and saves space compared to installing both a flight of stairs and a separate lift.

### Lala Postioner

The LalaPositioner is a useful positioning device designed to improve a child's postural alignment when spending time out of the wheelchair. It can be used to position the child while asleep during the night or for effective and comfortable positioning for short periods during the day. It helps to control severe muscle stiffness, spasms and uncontrolled movements and is particularly effective in preventing extreme flexed or extended positions of the body, head and limbs.

### Glow Construction & Sensory Mood Furniture

From the amazing new Sensory Rooms range from Inclusive Solutions, these two products are a captivating addition to any space.

**Glow construction:** Tactile, visual and brilliant for children with visual impairment and low vision. As children turn the blocks, they change colour.

**Sensory Mood Furniture:** The ball, cube, cylinder (and many other shapes) create a striking feature in your sensory space. Use these for soft lighting, remote controlled to offer 16 different colours.
