Covertable Staircase and Lift

The FlexStep is the perfect solution to conquer split levels for all wheelchair users and walking impaired people in areas with minimal space. It is the most space-saving lift on the market and at the same time it offers a design to satisfy even the most fastidious user.

Sensory Integration Solutions

We supply a small range of specific products that assist with sensory integration.

It all started with a Sensory Integration trained Occupational Therapist, an anxious boy and a stuffed dog named Spot. Spot is now covered in patches, has been through the washing machine on various occasions but remains a loyal companion and an excellent co-regulator.

From there the range grew and more products have been added over time. We hope you enjoy your experience with us.
