

Special Kids: Products on Review

November 2021

Symmetrisleep

Symmetrisleep is the World's most popular in-bed sleep system; it provides dynamic support throughout the night, when the body is most relaxed and susceptible to change. It is a proven system widely used to protect and improve body shape as well as function. For many it provides relaxation, a better nights sleep and easier care.

Symmetrisleep is the answer for support and control in lying. Lying straight helps you: to Sit Straight, Stand Straight and Grow Straight

Paediatric Orthotics

Paulani Hunt has over 15 years experience in this profession, during this time she has developed a special interest in paediatric orthopaedics and Prosthetics.

This includes the manufacturing and fitting of customized bracing - both supportive and corrective. Paulani works closely with other professionals to ensure that each child receives the correct, most up to date orthotic treatment possible.

The Sensory Shop

After recognizing the growing needs and demands for our children that "march to the beat of their own drum", our dedicated and passionate team at The Sensory Shop set out to provide easily accessible tools and aids to help make these daily activities more manageable. In doing this we hope that we can provide support to therapists, parents, teachers and children throughout South Africa and bring our much-loved items, not only into schools and therapy rooms but into homes too.
