The StandUP standing frame

Introducing **The StandUP**, an economical and user-friendly Static Standing Frame designed to support your child in an upright position. Perfect for assisting with weight-bearing and posture, this frame offers a straightforward solution for maintaining balance and alignment.

The StandUP supports your child's feet, knees, hips, and trunk with comfortable pads and adjustable straps, ensuring they are held securely in the correct position. Its simple design makes it easy to use and adjust, providing reliable support as your child grows.
